

SUPPLEMENTAL ACCOUNT TERMS, CONDITIONS, and TRUTH-IN-SAVINGS

Effective October 13, 2020

SAVERS CERTIFICATE

Rate Information - The dividend rate on your term share account is _____% with an annual percentage yield of _____%. You will be paid this rate until first maturity.

Compounding frequency - Unless otherwise paid, dividends will be compounded every day.

Crediting frequency - Dividends will be credited to your account every month. Alternatively, you may choose to have dividends paid to you or to another account every month rather than credited to this account.

Dividend period - For this account type, the dividend period is monthly.

Minimum balance requirements - The minimum balance required to open this account is \$25.00. You must maintain a minimum daily balance of \$25.00 in your account each day to obtain the disclosed annual percentage yield.

Daily balance computation method - Dividends are calculated by the daily balance method which applies a daily periodic rate to the balance in the account each day.

Accrual of dividends on noncash deposits - Dividends will begin to accrue on the business day you place noncash items (for example, checks) to your account.

Transaction limitations:

You may make unlimited additions into your account. There are no limitations on the frequency or timing of additions. You may make withdrawals of principal from your account before maturity. Principal withdrawn before maturity is included in the amount subject to early withdrawal penalty. You can only withdraw dividends credited in the term before maturity of that term without penalty.

Time requirements - Your account will mature _____. Early withdrawal penalties (a penalty may be imposed for withdrawals before maturity) - The penalty we may impose will equal 180 days dividends on the amount withdrawn subject to penalty. In certain circumstances such as the death or incompetence of an owner of this account, the law permits, or in some cases requires, the waiver of the early withdrawal penalty. Other exceptions may also apply, for example, if this is part of an IRA or other tax-deferred savings plan.

Withdrawal of dividends prior to maturity - The annual percentage yield is based on an assumption that dividends will remain in the account until maturity. A withdrawal will reduce earnings.

Automatically renewable account - This account will automatically renew at maturity. You may prevent renewal if you withdraw the funds in the account at maturity (or within the grace period mentioned below, if any) or we receive written notice from you within the grace period mentioned below, if any. We can prevent renewal if we mail notice to you at least 45 days before maturity. If either you or we prevent renewal, dividends will not accrue after final maturity. Each renewal term will be the same as the original term, beginning on the maturity date. The dividend rate will be the same we offer on new term share accounts on the maturity date which have the same term, minimum balance (if any) and other features as the original term share account. You will have a grace period of ten calendar days after maturity to withdraw the funds without being charged an early withdrawal penalty.
